Sherry

I am attaching my response to Michael Harris for your review. The reference to comprehensive site investigation reflected trying to pull together all of the data, including recent studies, and to evaluate remedial options. I will be on the road the rest of the week but would be available for a call on Monday morning.

**Subject:** FW: Summary/Action Items from 10/12/2016 Tower Standard Senior Managers Conference Call

John,

I am writing to you in an attempt to get more perspective as to what came out of the Senior Managers call and a little more information about what the next steps are.

Did you provide Michael Harris with a written response to his October 13<sup>th</sup> email? Would you mind sharing that with me? Either way, would you be amenable to discussing that senior manager call with me, Bob and Chris so that we can get a sense of what the next steps are? In particular, we are confused about what is meant by the comprehensive site investigation mentioned in #3 and #4 below.

We think that the reference may be about the Bristol remedial options technical memo but aren't certain because we don't see that as a comprehensive site investigation report. We have shared that technical memo with Kristen but have not heard any comments from her yet. We are currently considering having a call with LDF and Tom Kady so that we can work through comments with the tribe. As soon as we can do this, we would like to have a conversation with WDNR so that we can discuss where this fits within all of our work. We then have to talk to our contractor to go forward.

**Subject:** Summary/Action Items from 10/12/2016 Tower Standard Senior Managers Conference Call

Good Morning Larry, Judy, and John,

Thank you for taking time out of your busy schedules to participate in yesterday's conference call regarding the Tower Standard Site. The following is a summary of the action items from the call:

- 1) Update Tower Standard Timeline based on work that has transpired since our May 26, 2016 meeting in Woodruff, WI. (EPA will update with input from LDF and WDNR)

- 2) Create list of all available sampling data to date. (EPA will create with input from LDF and WDNR)
- 3) Determine Timeframe needed to review Bristol's Comprehensive Site investigation (Technical staff from EPA and LDF)
- 4) Share Bristol's Comprehensive Site investigation with WDNR and determine how much time is needed to evaluate remedial options (Technical staff from EPA, LDF, WDNR)
- 5) Schedule Meeting with Senior Managers to Present Remedial Options (EPA)

Please let me know if you have any corrections/additions to this by COB this Friday, October 14, 2016. Thank you.

Michael Harris
